## ABOUT US

"Om Energy Equipment" was established in the year 2000. And from there on, our focus is on manufacturing and selling products which in turn satisfy customer needs and cater to custom requirements of our customers. Now we are one of the leading manufacturer and seller of Delta Solar water heater in Gujarat. (India)

We believe in 'giving our innovative products and best services to save energy and saving future'. Our work environment offers contributions in terms of ideas, attitude, knowledge and culture, which in turn enable us to get the high efficiency solar cells and materials needed to build cost

effective systems on schedule. Our fully-integrated Delta Solar system is easy to install. With climbing electricity rates and the state and federal incentives Delta Solar is trying to fulfill your home needs by saving electricity.

We are committed to a clean and green environment for our future generation to let them live and grow freely.

To Save The Environment

### Save Energy

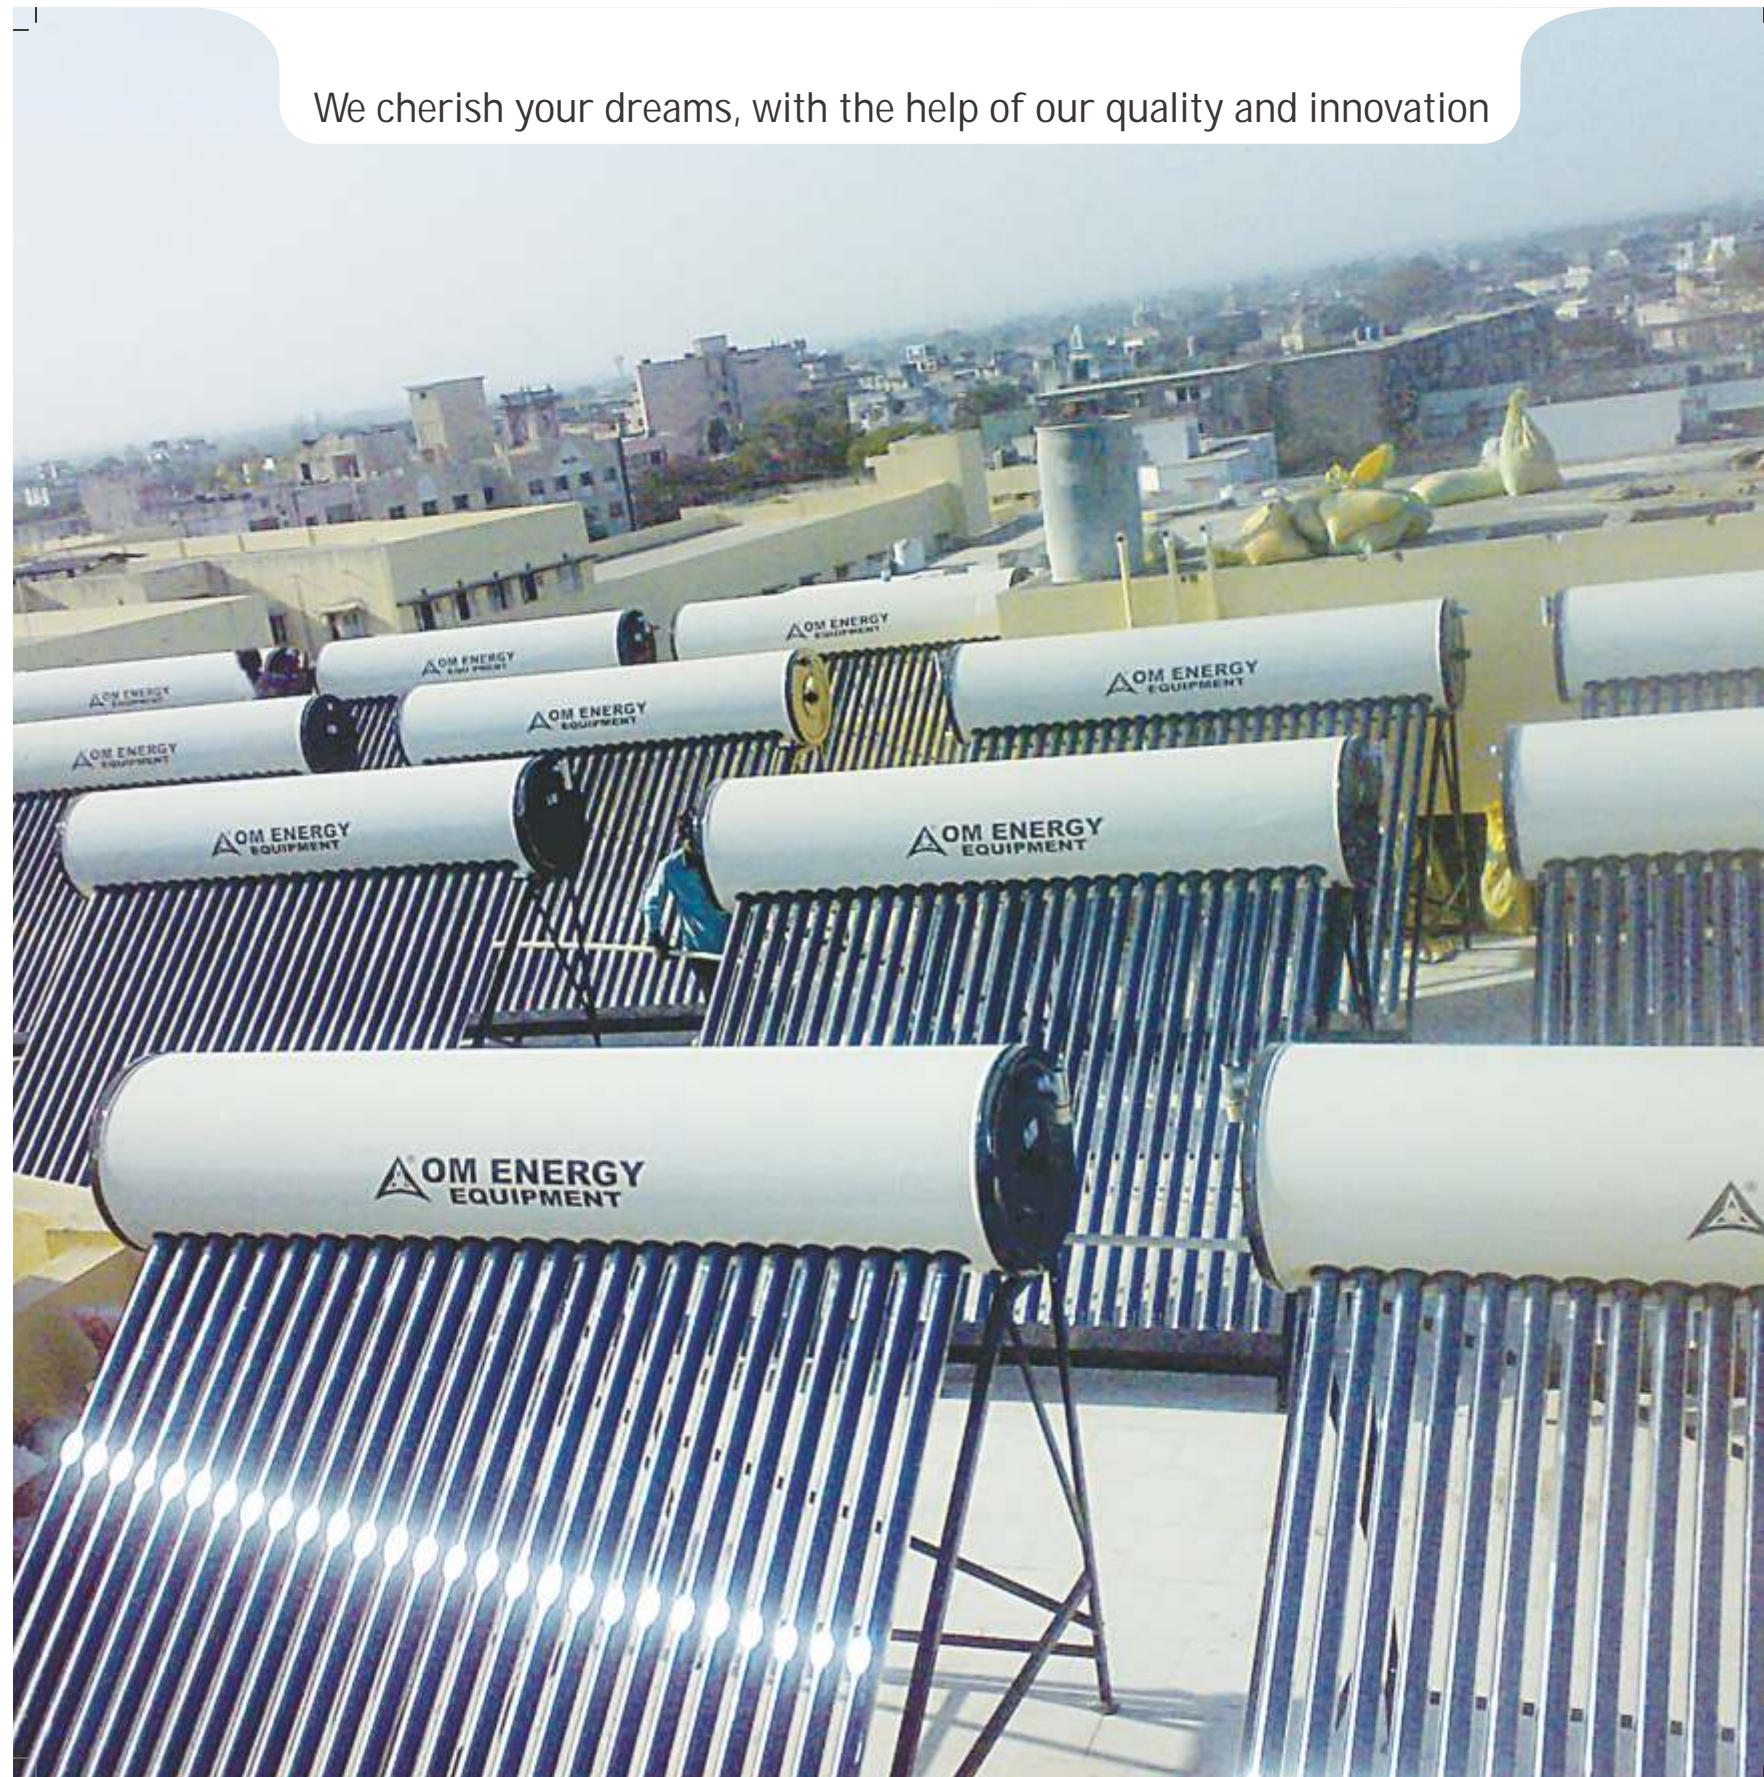

- Water is the most commonly renewable energy resource.
- Keeping this in mind we are trying to save the maximum energy we can. By saving energy we will also be reducing our country's dependence on other countries for different other resources.
- A solar water heater reduces the pollution and investing in one you will be avoiding air pollution and wastes.
- An average household compared to an electric water heater saves around 25 % of extra home energy by using solar water heater instead.
- Natural water heating with the sun is in favor of long term benefits like saving of fuel, protection against price increases and the environmental benefits.
- Let's join hands to make earth a clearer space to breathe & grow for our future generation and ourselves.
- We are committed to clean and green environment.

### Save Environment, To Save Our Planet

We cherish your dreams, with the help of our quality and innovation

### Exceptional Benefits of Delta's Integrated Solar Water Heaters

High efficiency with 93% absorption.

Unlike flat plates solar tubes can be cleaned easily from inside, scales can be easily removed in case of hard water.

Powder coated outer tank with PUF insulation ensures low conduction and convection losses to atmosphere.

Powder coated stand to give more strength and life.

Low cost and long life.

Excellent service back up.

### Unique advantages of Delta Solar

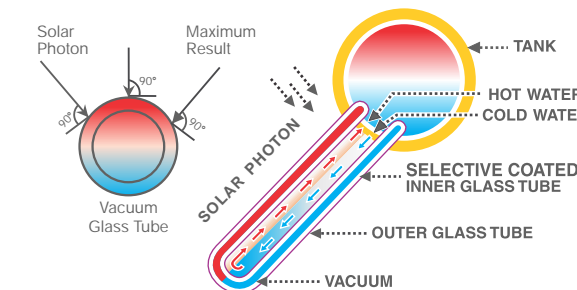

Best insulation is provided by evacuated glass tubes.

Works on the principle of natural Thermosyphon Circulation.

The system is being commercially used since last 10 years by a number of countries like USA, Japan, Germany, Australia, Spain and many more.

Government of India (MNRE) has approved the product ETC and decided to promote its use throughout our country.

### THREE LAYER EVACUATED GLASS TUBE

### ADVANTAGES OF ETC TUBE SOLAR WATER HEATING SYSTEM

- World's latest Innovated technologies.
- High temperature.
- Cost Effectiveness.
- Less scale due to tube big diameter.

We long to make our earth a better place to live in

SOLAR SYSTEM SPECIFICATIONS

- H.D.G. tank for long life
- The thick tank gives more strength
- Marine inside coating • S.S. Nipple • Hot Deep Galvanize Leg
- Embossed side cover • Rockwool / PUF Insulation

APPLICATIONS

- Household Water Heating • Hotel & Restaurant
- Industrial & Commercial • Swimming Pool
- Health Club. etc. • Institutions • Hostel • Hospital

LPD. Details for Evacuated Glass Tube Solar System

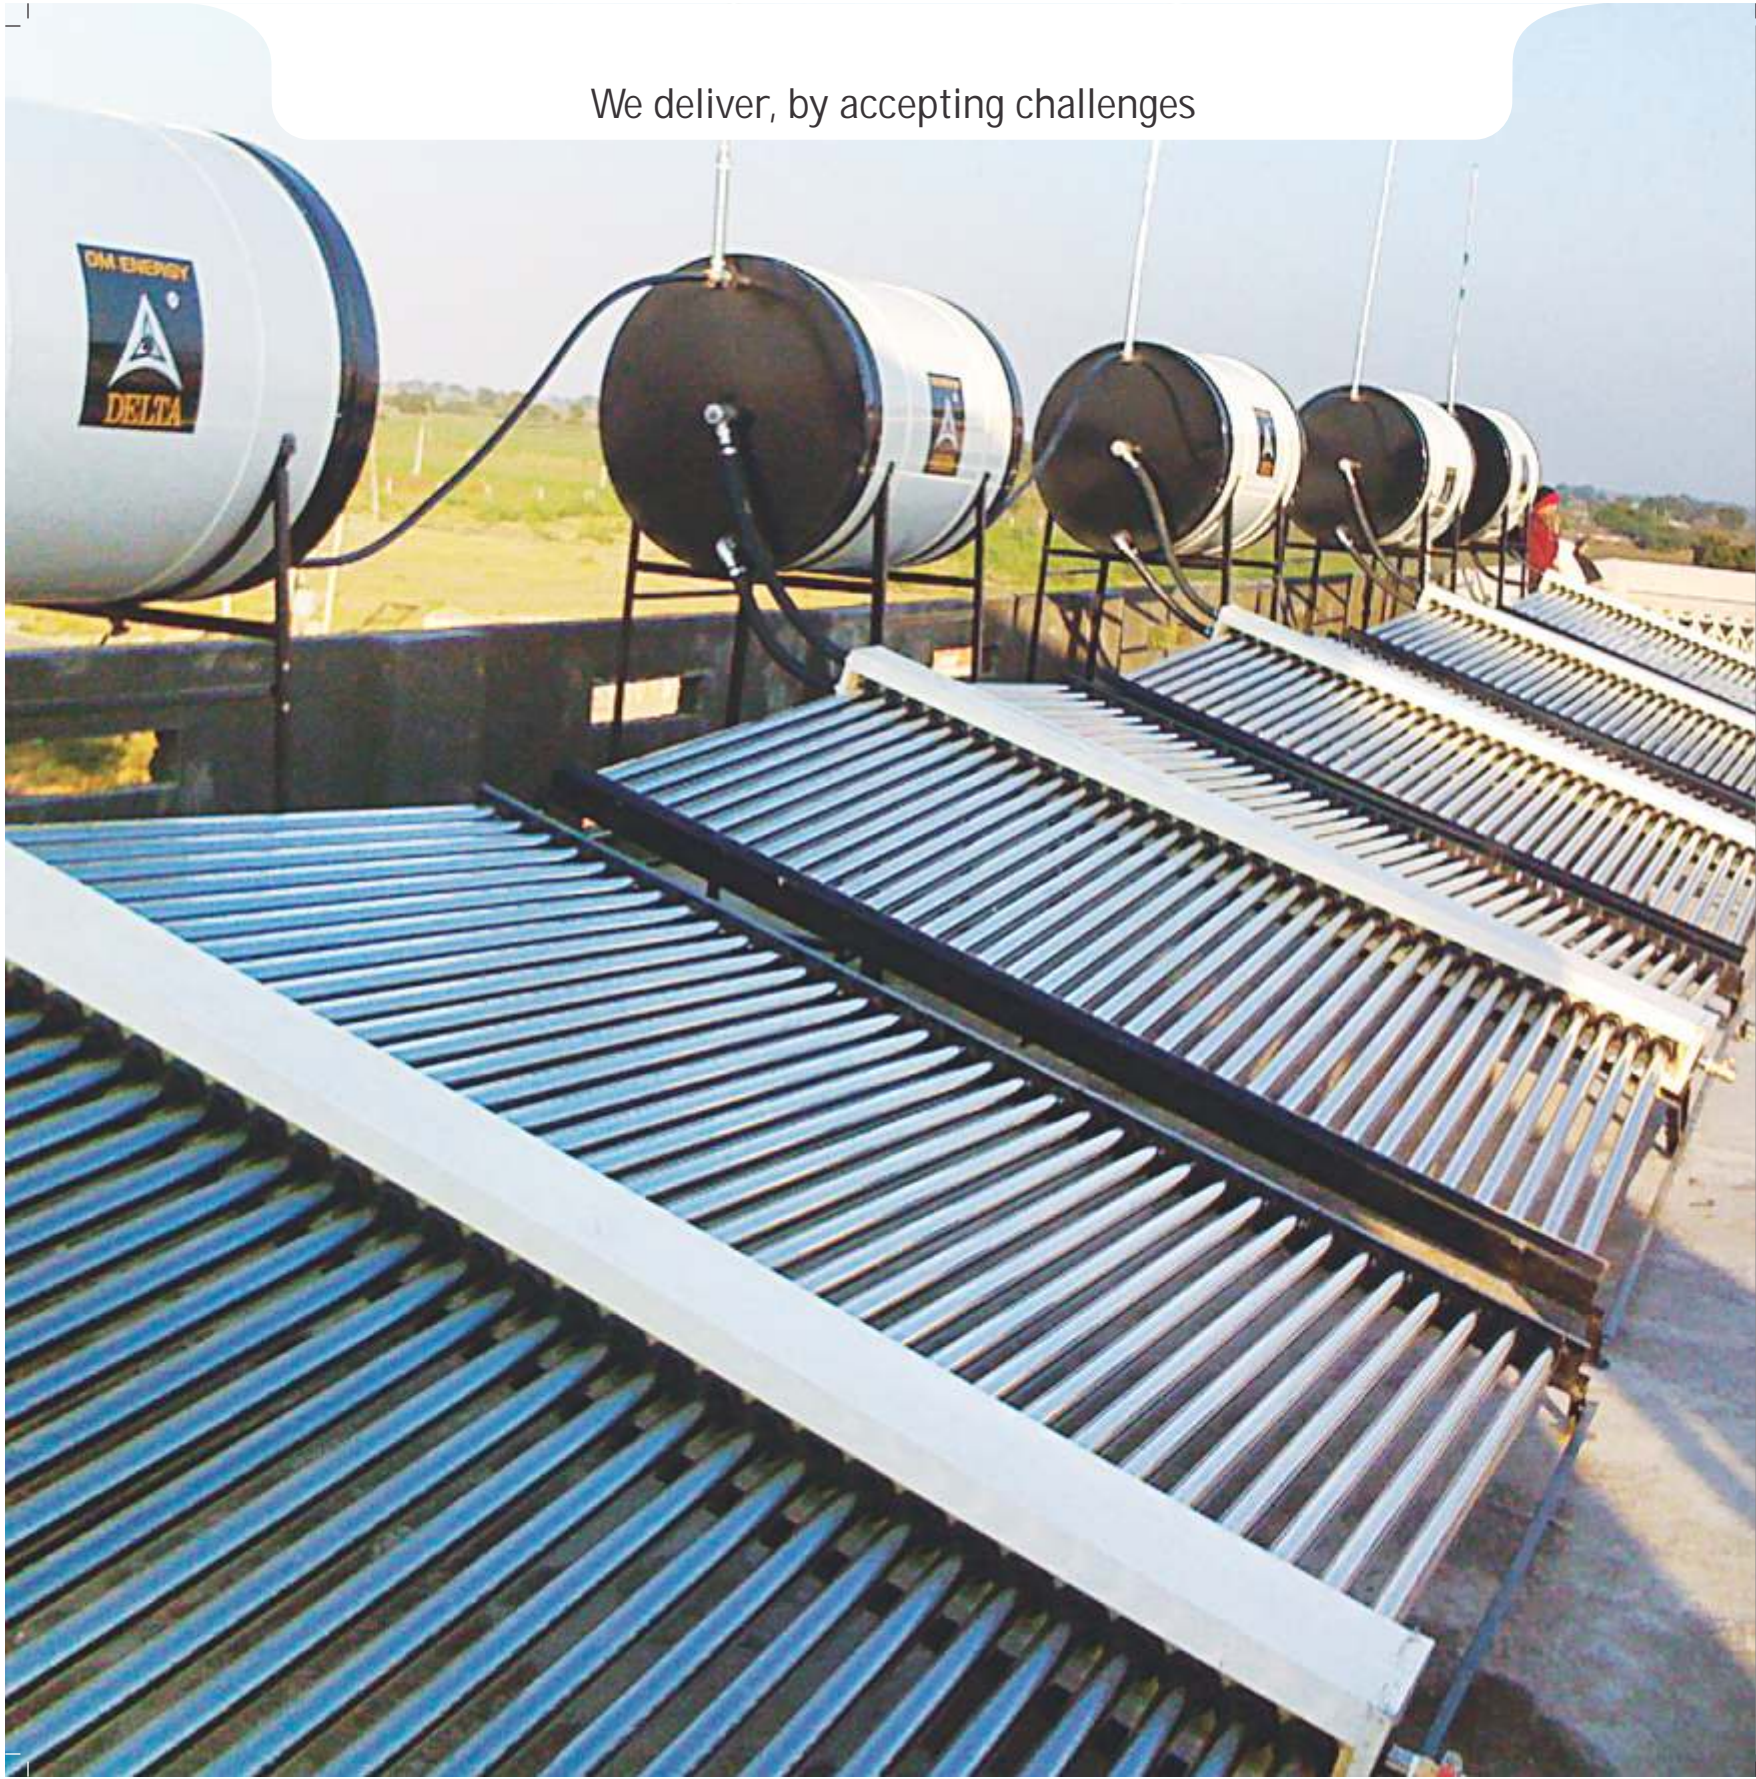

CAPACITY IN LITER	OCCUPIED AREA BY SOLAR SYSTEM (NS*EW) IN FEET
100	7 x 3.5
150	7 x 5
200	7 x 6.5
250	7 x 7.5
300	7 x 8.5
500 D.T.	8 x 9
500 (Many fall system)	9 x 14
600 (Many fall system)	10.5 x 14

\* If required upper lit. capacity is adjustable with tube lit. capacity  
\* Conditions apply.

### Powering Your Home With The Delta Solar Electricity

A new era for solar lighting

Our Solar Lights are well-designed to illuminate large areas with the highest intensity of light. They are used for commercial quality lighting systems, residential streets, parking lots and security lighting using high quality of solar systems.

We offer a wide variety of solar lighting configurations and styles to meet your specific needs. Our system will be configured according to the environmental conditions of the installation site as well as your specific requirements.

The applications for the Delta solar powered outdoor lighting systems are endless. These units can be used for :

- Outdoor area lighting
- Street lighting
- Parking lot lighting
- Rural area lighting
- Security and safety lighting
- For Military and civil security and so on

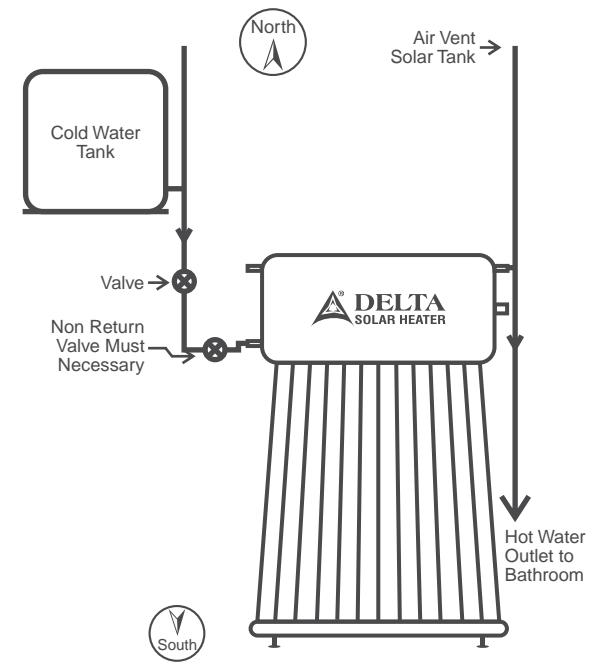

The costs of trenching and installing underground wiring makes the Delta solar street lighting system an economically feasible lower cost option.
