

Ever green *Delta solar* the green warrior

SPECIFICATIONS

- High Density Galvanise Thick Tank(Avg. 12 gauge)
- Thick Tank Gives More Strength
- PUF Insulation
- Marine Inside Coating
- Aluminium embossed side cover
- G.I. Sheet Stand
- S.S.Nipples(Thread fitted on coupling)
- Hot Deep Galvanize Base & Leg

APPLICATIONS

- Household Water Heating
- Hotel & Restaurant
- Industrial & Commercial
- Swimming Pool
- Health Club etc.
- Boiler Feed Water Preheating
- Hostel
- Hospital

AN ISO 9001-2008 & ISO 14001 COMPANY

- World's latest Innovated technologies.
- High temperature.
- Less scale due to tube big diameter.

EVACUATED GLASS TUBE
MANYFOLD SOLAR SYSTEM

BASE

G.I. STAND

LEG

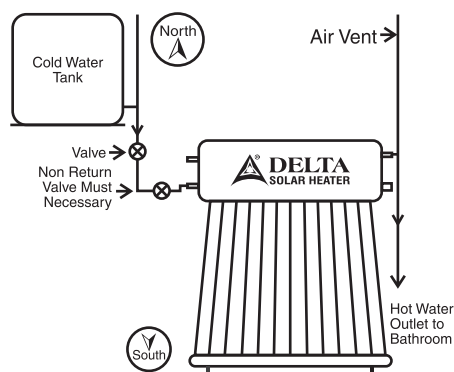

3 Layer Tube

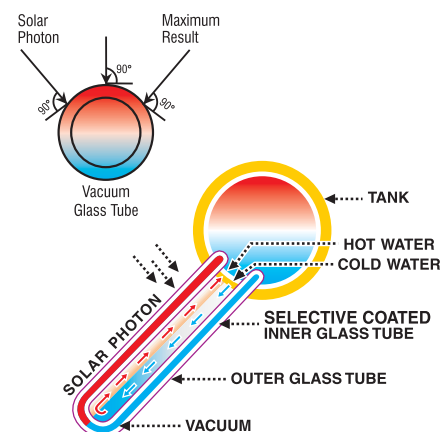

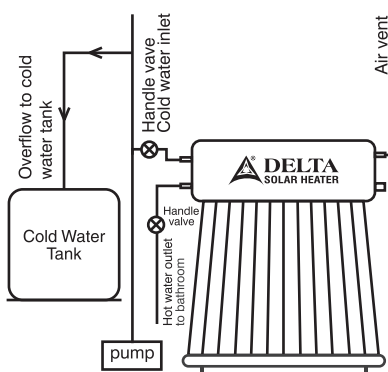

PARTS	FEATURES	USER BENEFITS
Hot Water Tank	Marine Epoxy Coated (whole inner tank)	Longer life, Protection against corrosion
	Thick High Density Galvanised tank	Longer life for any quality of water. Strong welding and nipple connections.
	Side cover Embossed with insulation.	Weather proof, Can be opened too.
ETC Tubes	Triple Layer, Best Vacuum insulation	Better water heating, No heat loss.
Insulation	PUF	Negligible heat loss in winter.
Stand	Galvanized	Weather proof
	Hot Dip GI base and leg	Protects against rain water and corrosion
Water connection Nipples	SS Material	Weather proof
	Thread fitted with welded coupling	Strong joint, can be opened too.
Electric Back Up and Reflector.	Optional	

Our Commitment: • We may design and install customized product. • Free plumbing guidance for any hot water system.

Overhead tank water feeding system

Manual water feeding system

Note : Insulation is Must in Hot Water Tank Air Line.

OUR SYSTEMS SUCCESSFULLY WORKS IN GUJARAT, MAHARASHTRA, MADHYAPRADESH, RAJASTHAN
